

From Idea to Image™

LP-7.5CL95-EP

4-way Laparoscopic Probe

*Assisting physicians to perform
minimally invasive surgeries...*

With the ever-increasing cost of healthcare, **STI** realizes the importance of offering patients a minimally invasive alternative to standard surgery. Our laparoscopic products help physicians perform complex operations in a comparatively short time with easier, faster recovery for the patient.

Features

- 7.5MHz center frequency
- High performance Encap™ acoustic design
- 95 element convex array
- 48mm radius of curvature
- Four-way steering mechanism
- Greater than 180 degree articulation in each plane
- Locking brake feature in each plane
- Over-Torque protection
- Modular cable system for lower cost repairs
- Steris® and Sterrad® compatible
